

# Damien Sheridan

Senior Infrastructure Programme Manager | Data Centre Delivery | Enterprise Infrastructure Deployment

## EXECUTIVE PROFILE

Senior infrastructure programme manager with 20+ years of experience delivering complex enterprise infrastructure, data centre, security, cloud, network, AI and technical deployment programmes across regulated and high-availability environments. Brings strong control of implementation planning, governance, risk, dependencies, vendor ecosystems, executive reporting, testing, handover and operational readiness. Public profile is deliberately sector-led and anonymised where appropriate to protect confidentiality and avoid implying client endorsement.

<p><b>\$3.5bn+</b></p> <p>programme value delivered</p>	<p><b>20+ years</b></p> <p>infrastructure and programme delivery</p>	<p><b>30+ offices</b></p> <p>global environments supported</p>	<p><b>10,000+ people</b></p> <p>supported through high-impact projects</p>

## CORE DELIVERY CAPABILITY

### Programme Governance & Recovery

Scope definition, RAID discipline, change control, dependency management, KPI reporting, CXO visibility and delivery recovery planning.

### Data Centre & Infrastructure Delivery

EU, US, APAC and Middle East delivery experience across readiness, implementation, migration, handover and service transition.

### Networks, Cabling & Connectivity

Network implementation, structured cabling, fibre and copper readiness, WAN/LAN/WLAN, SD-WAN, Meraki Wi-Fi, switching, routing and secure connectivity.

### Cybersecurity & Vulnerability Remediation

Qualys/Rapid7 style governance, SAST/DAST workstreams, endpoint visibility, server hardening, patching, risk reporting and remediation tracking.

### Cloud, Platforms & Lifecycle

Azure/AWS, Citrix, server OS lifecycle, Windows Server, Red Hat Enterprise Linux, Windows 10 migration, end-of-life remediation and platform transition.

### Executive Stakeholder & Vendor Control

Steering packs, decision tracking, supplier performance, partner coordination, escalation control and operational acceptance.

## SELECTED DELIVERY HIGHLIGHTS

### Clinical Trials / Life Sciences

Managed EU and US data centre delivery activity, global Wi-Fi consolidation for 8,500+ employees, certificate/logon simplification and Qualys vulnerability-management remediation.

### Financial Services & Payments

Supported South Africa database deployment and major Irish financial-services programmes covering core banking, automation, NFT, performance testing and infrastructure resilience.

### Aircraft Leasing / Global Infrastructure

Managed global infrastructure transformation covering Citrix, Azure migration, federated identity, SD-WAN, WAN/LAN consolidation, Meraki Wi-Fi, SSO and Windows/server upgrades.

### Healthcare Insurance / Security

Delivered cybersecurity and remote-working enablement during early COVID, including SAST/DAST, Rapid7, endpoint visibility, Citrix scaling and centralised reporting.

### Data Centre Infrastructure

Led post-acquisition network integration and security alignment for data-centre environments, supporting secure connectivity, compliance alignment and tool deployment.

### Clinical Logistics / Vaccine Distribution

Delivered infrastructure activity supporting temperature-controlled vaccine distribution operations, EMEA/APAC relocations, Azure, Intune, Teams/Zoom and WLAN/telephony upgrades.

### Retail & Workplace Transformation

Managed major office technology delivery and fit-out coordination for 1,000+ users, integrating workplace infrastructure to global WAN and operational services.

### Hospitality & Construction Technology

Delivered early IPTV/digital services across 133 rooms and approx. 300 lodges, and led large residential structured cabling including 32,000 data points.

## MEASURED OUTCOMES

**10,000 p.a.**

average vulnerabilities addressed per annum

**85% YoY**

address rate on assigned vulnerabilities

**8,500+**

employees supported through Wi-Fi consolidation

**EU/US/APAC/ME**

global data centre delivery coverage

## Professional Credentials

- PMP and PRINCE2 certified
- PMI-ACP, ITIL, structured governance
- MCSA / MCSE background; VMware; SQL
- CCNA / CCNP background; Cisco UCS; NX-OS
- Fortinet, Juniper, secure connectivity and vulnerability management experience
- Advanced Level AI Ethics - UCD
- MSc Counselling & Psychotherapy - Dublin Business School

## Sectors Served

- Financial services and payments
- Clinical trials, life sciences and healthcare insurance
- Aircraft leasing, automotive/fleet and global workplace technology
- Data-centre infrastructure, hyperscale technology and cloud platforms
- Clinical logistics and temperature-controlled distribution
- Utilities, energy, retail, hospitality, construction and public sector

**Discuss a programme, recovery plan or delivery assurance engagement**
